TRANSFER BETWEEN COMMUNICATION AND COMPUTATION COURSES

The purpose of this Board Rule is to establish Board policy for the adjustment of student courses of study in appropriate circumstances.

A student who is having difficulty in certain English and/or mathematics courses may drop from the course and enroll in a course in the same discipline at a lower level, or may, within the College's approved timeline, move to a higher level course in the same discipline when it is determined that the student is sufficiently prepared.

The President shall establish procedures to implement this policy.
