

6Hx19-2.551 REQUIREMENTS FOR CERTIFICATION AND RE-CERTIFICATION

This Board Policy establishes requirements for certification and recertification of designated personnel.

All full-time instructional personnel, all instructional supervisors at the Assistant Director level and above, and all full-time employees with teaching responsibilities as indicated in their official job descriptions are required to be certified as part of their employment with Pasco-Hernando State College (College). Certification is awarded at the time of employment. All certificates bear the date of July 1 of the fiscal year in which the certificate is issued and shall expire five years from that date.

Employees in the categories noted above are required to maintain current certification as a criterion for continued employment. Failure to renew certification will render that person unqualified for employment with the College.
