6Hx19-3.14 GRADING PRACTICES

The College will establish a grading system and practices used to indicate the quality of work done by students at Pasco-Hernando State College and to implement procedures related to awarding and reporting student grades for coursework.

The assignment and recording of student grades are the responsibility of the individual instructor. A final grade report for each student will be submitted electronically by the date and time reflected in the College Calendar.

In cases when the instructor is not available, the Academic Dean is authorized to recommend the assignment or change of a grade. A written explanation will be provided in each such instance to the Chief Academic Officer prior to the assignment or change of a grade.

All grades will adhere to established guidelines. A common grading policy establishes a consistent method of communicating student achievement and supports trustworthy academic records.

The basis on which a grade was awarded may not be challenged; however, the accuracy of recording the grade may be challenged.
