

6Hx19-4.13 ALLOCATION OF INFORMATION TECHNOLOGY

The purpose of this Board Rule is to establish Board policy regarding allocation of information technology.

Consistent with the mission of the Institution, Pasco-Hernando State College is committed to providing technology resources that satisfy the academic and administrative needs of the College. Because these resources are so important and advances in technology occur so frequently, the College has implemented a technology plan which includes the systematic replacement of technology necessary to effectively and efficiently operate the College. Highest priority shall be given to maintaining the technology used to support instructional delivery.
