

6Hx19-6.32 CHARTERING OF AND SUSPENSION OF A STUDENT CLUB/ORGANIZATION

The purpose of this Board Rule is to establish Board policy for the approval, suspension, and dissolution of student clubs and organizations at Pasco-Hernando State College.

The College President has the authority to establish procedures relating to the charter, suspension and dissolution of student clubs and organizations.

The minimum requirements for the process to charter new student clubs and organizations will include Student Government Association review and recommendation of approval.

A recognized club or organization at Pasco-Hernando State College may lose its official recognition and be suspended or dissolved, if, as a result of the actions of its officers or members or as a result of an activity of the organization as a whole, the organization violates College policies and procedures. District Board of Trustees Rule 6Hx19-6.34 *Anti-Hazing Policy* addresses the College's definition of hazing and the policy to address alleged hazing incidents.
